Introduction of offshore air winch

JQHS50 offshore air winch is a kind of manual operated single drum type air winch. It adopts compressed air as its power to drive air motor, driving drum via two grades gears (to reduce transmitting speed and enlarge torque) so as to lift and drag heavy cargo. Considering security, this winch is equipped with air cylinder brake. This winch is widely used for oilfields, second platform to carry heavy cargo.

Main features of offshore air winch

- 1) Small in size, light in weight, high in mobility
- 2) Variable speed control, flexible to perform clockwise and anti-clockwise rotation
- 3) High practicability with anti-explosive function, especially stable and reliable in inflammable, explosive, wet, damp, and other extremely working environments
- 4) High starting torque enables start with load
- 5) Anti-overload function
- 6) Equipped with cylinder air brake, which enables the winch automatically in brake when stops

Parameter for offshore air winch (Model:JQHS-50*12)

Items	Parameters	Measurement Unit
Rated Working Pressure	0.6-0.8	MPa
Rated Full Force	50	KN
Rated Cable Speed	12	m/min
Piston Air Motor	Model	TMH17
	Rated Power	17
	Air Consumption	247
Drum	Diameter	222
	Width	335
	Wheel Rim Diameter	465
Cable Diameter	16	mm
Cable Storage	120	m
Air Inlet Diameter	1 1/4	inch
Configuration (Length* Width* Height)	1250mm*770mm*1016mm	
Weight	518	KG
Brake Type	Hand Brake and Auto Band Brake	

Certification

YS is a professional winch,hoist,motor manufacturer.YS passed the API,ISO,CE,BV,DNV,CCS,ABS certification.Tell us the certificates what you need,we do the left.

WHY YS

With a history spanning 47 years, YS has served a wide variety of industries including marine, mining, manufacturing, material handling, inland terminal, and construction to name a few. No matter how diverse the applications, one thing connects them all – YS moves it all from big to small. YS products are manufactured to the highest industrial and quality standards because your application is our application.

Why Choose YS

YS Specializes In Customization

Investigation in mine

Design for you

YS Knows Your Application

YS Is Synonymous With Quality

Your smile is everything

The certification officer at factory

YS Values Your Satisfaction

YS Always pursues the first class

Anything is possible

Awards for products

YS Always On The Way Of Innovation
